Notes to Catalogue 114

It has been 9 months since I did one of these NEW ACQUISITIONS catalogues and I constantly get requests for such offerings, so here is another. This catalogue is full of Churchill material you won't find elsewhere or will have to pay big money.

To start, items 1-24 present a selection of books, mostly political biographies, which are signed by their respective authors.

Items 25-31 are magazines with Churchill contributions or cover photos, including several elusive issues of NEWSWEEK.

Items 32-38 presents some of the Vanity Fair chromolithographs from over 100 years ago, mostly people from the Boer war or associated with Churchill, plus the famous SPY print of Churchill.

You will also find several premium ceramics, a leather-bound set of The Official Biography, and several interesting old calendars featuring Winston Churchill.

We have no plans to stop making paper catalogues. The following are planned for the remainder of 2006:

A NEW Churchill Bibliography

At last, after 22 years of research, Ron Cohen's definitive and comprehensive bibliography of Churchill's writings is now published.

Bibliography of the Writings of Sir Winston Churchill By Ronald I. Cohen
published by Continuum in 3 volumes at \$990.00 (I have not been invoiced at time of printing this catalogue, so please phone for your discounted price.)

This is without doubt the ultimate in bibliographic detail on Churchill's works. The author has located and described in detail more than 350 books and pamphlets by Churchill, over 1200 articles, and some 1250 "letters to the editor", plus contributions to over 700 other works. These are large volumes, nearly 7 x 10 inches.

I recommend this book to any collector whose interests go beyond the basic 50 books by Churchill. This is the ultimate reference to speech pamphlets, forewords and similar contributions, and magazine articles. It is also the final word on matters such as quantities published and questions of what edition came first.

Yes, it is expensive, but on a per page basis, it is about one third of what a number of you have paid me for Companions to volume V, most of which are never read.

From the Foreword by Sir Martin Gilbert:

More than forty years have now passed since Woods was first published. This new bibliography by Ronald I. Cohen, marks a high point "and surely a peak" of Churchill bibliographic research. It is in every way the Mount Everest of the subject. Ron Cohen's discoveries are many, adding not only to the bibliographer's art, but to knowledge of Winston Churchill himself.

The layout of the sections is clear, inviting the reader not only to check a reference or enhance a footnote, but to read the whole history of Churchill through his prolific pen.

As befits the work of a master craftsman, this book contains innumerable explanatory footnotes that go beyond bibliography in its narrowest sense to history in the round: biographical details, clues revealed in archives, mysteries resolved, and mysteries left suspended with a question mark ; a true sign of scholarship.
