Notes to Catalogue 121

This is a follow-on to Catalogue 115- which listed 100 best books about Churchill, and were intended for readers. This Catalogue concentrates on books for collectors. The value is based on scarcity, not content.

Firstly, there is a big selection of unusual titles from the Zoller list and even a few new discoveries not found in Zoller. There were a few treasures left unsold from Catalogue 106, and these are offered again here, but at reduced prices. There are a number of books offered here that represent the only copy I have ever seen or heard of.

Secondly, there is a big selection of 45 books signed by the author. This is a popular collecting theme, and this is the best chance in years to expand your collection. In most cases, the illustration shows the signed or inscribed page

Finally, you will find a selection of proof copies and review copies. Some of the proof copies were seen in Catalogue 116, but are listed here at reduced prices.

The listings are arranged in chronological order, with the 1916 biography by A. MacCallum Scott being first, and a signed copy of Martin Gilbert's newly published CHURCHILL AND THE JEWS being last at no. 160.
