Notes to Catalogue 130

Here is another of these very popular catalogues of unusual Churchill material. What you will NOT find here are the standard first editions, although there is a nice set of THE RIVER WAR. There are some nice leaflets from the 1945 election and a never before seen WW1 speech pamphlet in Portuguese. For those of you seeking all editions of books by Churchill, there is a copy Langworth's limited edition of Savrola in Latvian.

You may remember that Cap Weinberger, Sec Def back in the 80s, was an avid Churchill fan. I have managed to acquire his Churchill library and there are some interesting items, including five of the pamphlets from the Crosby Kemper Lecture series at Westminster College. There are several books inscribed to Weinberger.

There are several new autograph items. One is a very early studio portrait of Churchill, signed on the mount, which dates from 1904, when Churchill was a young back-bencher.

Page 10 features Churchill medals and silver. With all the economic uncertainty, gold and silver are very popular now. But please do not expect to find anything priced below scrap value.

There are a few high end items herein, but the emphasis is low cost items- I count 37 items priced at \$50.00 or less, and well over half the items are \$100.00 or under. Unfortunately, it is not economic to offer items at under \$5.00 in this illustrated catalogue.

Half-Price Sale

These catalogues normally have a high percentage of sales, but not 100%. The inside back cover lists 10 items from last July's catalogue that did not sell. All of these are now on sale at half the previous price. The price shown is the original price, so deduct 50%. So this is items 101-110.
