# Notes to Catalogue 138

Here is another of these very popular catalogues of unusual Churchill material. What you will NOT find here are the standard first editions, although there are a few unusual books by Churchill, and 2 sets of Collected Essays. There are some scarce speech pamphlets and a selection of books with Churchill contributions dug out from the Wybrow collection.

There is a selection of Churchill medals and silver, including several high end silver commemoratives from Garrard's and Mappin & Webb. With all the economic uncertainty, gold and silver are very popular now. But please do not expect to find anything priced below scrap value. In the past year silver has ranged from \$27.00-\$49.00 per ounce. (Troy ounces)

I have included some press photographs and postcards, but have so much of this material that dedicated catalogue is needed at some future date.

I have three of the highly sought stone commemoratives of stone from the bombed Houses of Parliament during the war. There are two ashtrays-one Churchill and one RAF; and then a paperweight.

Your satisfaction is important. Any item may be returned within 7 days for any or no reason.
