# Notes to Catalogue 139

This catalogue is all about Churchill on cards of all sorts. I have not done one of these for over 9 years.

## Postcards

Sizes are not listed in the descriptions. Most vintage postcards are about 3.5 x 5.5 inches (89 x 140 mm). Modern cards tend to be slightly larger at 4 x 5.75 inches (101 x 146 mm) but there are few of them listed herein. Some collectors prefer cards that are unused, whilst others like the authenticity of a postally used card with a postmark verifying its vintage. I have identified those cards with such postmarks. There are usually lots of Churchill postcards on offer on Internet auctions. Collectors should be aware that many of these are modern reproductions of older cards. The other caveat is high shipping and handling charges which can double the cost of a single card. This catalogue has a big selection of genuine original cards, dating back to the early 1900's.

There are few good sources for these postcards now. Years ago, the postcard fairs in England were a good place to look, but these days all you see is common cards at £10.00 or more.

Pre war cards nos. 1-30

Wartime cards nos. 31-80

Postwar cards nos. 81-90

## Cigarette cards

The standard size for a pre war cigarette card is about 1.4 x 2.6 inches (35 x 67 mm) These cards were given free in packets of cigarettes. There was a huge variety of sets produced covering all sorts of interests- sports, cars, actors, kings, flowers, etc, etc. Collecting was encouraged by numbering the cards within a set, so that collectors knew which cards they still needed. In modern times, makers of other products have released similar collector cards, which are referred to as "trade cards". Cigarette card dealers in England sell both complete sets and "odds". A framed set is a very attractive item to have on your wall. Some people frame them between two panes of glass so that the back can be read. There is a selection of these complete sets on page 12 (nos. 121-130).

After many years work, there is now a comprehensive listing of Churchill cigarette cards compiled by Cyril Mazansky and Joseph Gerwood. This was published recently in *Finest Hour* issue no. 153. To save space I have used the notation MG to refer to cards in this list,

And finally, on the back page, a selection of Churchill playing cards and cards with Churchill paintings.

**Note:** Some of the cards were displayed in an old album and the phrase album scar refers to blobs of paste that held the cards to the album pages
